

131PACK.SPACE

Wholesale Restaurant Packaging Supplies & Pricing Proposal

Stop wasting valuable kitchen preparation hours on supply runs and burning cash on hidden delivery costs. At **131PACK.SPACE**, operated under SPACE131FA LLC, we serve as your direct local sourcing partner for premium food service disposables. By matching raw wholesale tiers and dropping pallets directly at your kitchen door on a fixed weekly route schedule, we provide local independent operators unmatched bottom-line savings that online web distributors and retail cash-and-carry stores simply cannot reach.

■ **Zero Freight or Shipping Fees:**

National websites hook you with artificially low box prices, then slam you with weight-based freight surcharges (\$40–\$120+ per order is common). Our pricing is completely flat.

■ **Recover Free Operations Labor:**

Sending cooks or managers to stand in warehouse lines at cash-and-carry drains daily kitchen labor. We drop inventory into your storage room every week at zero cost.

■ **Minimize Storage Footprints:**

Localized routes from our regional hub let you run a tight week-to-week reorder rhythm. Never tie up thousands in massive backup inventory again.

■ **Seamless Tax-Exempt Transfers:**

File your California Resale Certificate once — we automatically strip sales tax from every invoice.

The Hidden Cost Reality: Webstaurant vs Restaurant Depot vs Amazon Business

WebstaurantStore often shows attractive case prices, but heavy items (cups, containers, bags) trigger significant freight. A typical \$400–\$600 order can easily add \$50–\$110 in shipping + fuel surcharges.

Restaurant Depot usually has lower box prices than Webstaurant, but you pay with membership fees, staff time driving and loading, fuel, and the need to over-buy to justify the trip. Labor + vehicle cost frequently adds \$30–\$60 equivalent per run.

Amazon Business is convenient for small top-ups, yet case prices run higher on most core items and “free shipping” thresholds or Prime benefits often disappear on heavy/oversized packaging. You still pay retail-leaning margins.

131PACK.SPACE = the published case price is the final price. Free local delivery on route. No freight surprises. No staff leaving the kitchen.

Mineral-Filled Hinged Takeout Boxes

SKU	Product Name & Specification	Case Pack	131PACK Price	Webstaurant	Rest. Depot	Your Savings

Market Analysis Summary

Comparisons use publicly listed case prices from WebstaurantStore, typical Restaurant Depot membership warehouse ranges, and Amazon Business listings. 131PACK.SPACE prices undercut these channels on the majority of high-velocity items (bagasse, mineral-filled boxes, medium-weight cutlery, PET cups, kraft packaging). More importantly, the published 131PACK price is the final price — no freight surprise, no staff leaving the line to pick up, no membership fees. That is the real savings operators feel every week.
